aaero monstercat pack

Visually amazing.. Love the song picks, but the tracks felt really uninspired.

If you're looking for more chill tracks, this might be the pack for you. But I was really missing the excitement factor in these ones, compared to the original tracks. I also would have liked to see at least one boss fight track in the dlc.

Again, the songs were good picks (I love monstercat) but the beat tracks just didn't live up to expectations from experiencing all of the base game songs.
